"The Family Health Series" & "The World Health Series" from HOHM PRESS offer a selection of soft-cover illustrated paperback books for young children to advocate a healthy and creative lifestyle. We offer free samples of our books in English, Spanish, bilingual and Chinese to health professionals and educators for review purposes in the hopes of reaching a wider audience of children.

These beautifully designed and illustrated books are written at a third grade reading level except Breastfeeding: Your Priceless Gift... available in 6th grade and 9th grade reading levels.

I hope that you will enjoy these samples, whether in book format or CD and order more as incentives and motivational tools for the children that you serve.
